THEXRA ENTERPRISE SOLUTIONS

SOLUTION PROPOSAL

Client: Omnispatial Retail Co. **Project:** Omnispatial Retail Co. Retail Solution Proposal

Date: October 15, ...

1. Executive Summary

This executive proposal outlines the deployment of AR — THEXRA View (Retail Edition) for Omnispatial Retail Co. to solve critical operational bottlenecks.

2. Client Challenge

Omnispatial Retail Co. faces high friction in its digital customer journey, where reliance on static 2D visuals and dimensional spec sheets creates customer apprehension regarding physical scale and room compatibility, leading to depressed cart conversions and costly post-sale logistics returns.

3. Project Objectives

Deploy an interactive spatial visual commerce solution to achieve a 35% increase in online conversion rates and a 50% decrease in return volumes across 251-1000 active shoppers and sales representatives within a 4.5-month implementation timeline.

4. Proposed Solution

THEXRA View replaces flat product imagery with high-fidelity, WebXR-powered augmented reality experiences, allowing e-commerce shoppers and sales representatives to visualize photorealistic, true-to-scale modular furniture in physical living environments before purchasing.

5. User Experience

Intuitive spatial interface engineered specifically for E-Commerce Shoppers & In-Store Sales Reps (251-1000 active users), accelerating user onboarding and minimizing operational learning curves.

6. Solution Architecture

A cloud-hosted WebXR spatial commerce engine enabling instantaneous, markerless augmented reality visualization and real-time modular furniture configuration across web and mobile retail channels.

7. Scope of Work

Deploy, configure, integrate, test, and deliver the customized THEXRA View WebXR spatial commerce engine for Omnispatial Retail Co..

8. Deliverables

Production-ready WebXR product page embed module
Automated CAD-to-WebXR 3D ingestion pipeline
Sales associate in-store spatial presentation interface
Enterprise spatial engagement telemetry dashboard

9. Implementation Plan

Phase 1: Discovery & Architecture
Phase 2: Spatial Customization
Phase 3: Integration & Testing
Phase 4: Final Deployment

10. Timeline

3-6-months

11. Assumptions

1. Key stakeholder availability for bi-weekly milestone sign-offs.
2. Sandbox environment API credentials provided during Phase 1.

12. Optional Add-ons

1. Premium 24/7 SLA Technical Support
2. Advanced Custom Analytics Dashboard
3. On-Site Staff Training Workshops
