THEXRA ENTERPRISE SOLUTIONS

SOLUTION PROPOSAL

Client: ApexHealth Surgical Innovations **Project:** VR Surgical Simulation Proposal **Date:** October 9, 2026

PROPOSAL EDITOR V1

Edit, regenerate, delete, add, or save proposal snapshots below.

1. Executive Summary

This executive proposal outlines the deployment of VR — THEXRA View (Education Edition) for STEMTech University Network to solve critical operational bottlenecks.

2. Client Challenge

STEMTech University Network faces critical educational bottlenecks due to physical and financial barriers that prevent remote engineering students from safely accessing capital-intensive, high-voltage electrical engineering laboratories.

3. Project Objective

Deploy a virtualized high-voltage engineering laboratory environment to support 251-1000 remote students within 1-3-months.

4. Proposed Solution

High-level immersive simulation architecture where THEXRA View replaces physical bench setups with standardized, cloud-managed virtual reality high-voltage test labs accessible remotely.

5. Target Users

Remote Engineering Students and Faculty (251-1000 active users)

6. Recommended Technology

VR — THEXRA View (Education Edition)
