1. Executive Summary

This executive proposal outlines the deployment of AR — THEXRA View (Tourism Edition) for Heritage Horizon Interactive to solve critical operational bottlenecks.

2. Client Challenge

Heritage Horizon Interactive faces severe operational challenges in Tourism stemming from overcrowding and physical degradation of delicate tourist landmarks alongside poor visitor navigation, where the absence of a structured digital guidance framework creates heavy site bottlenecks and environmental wear.

3. Project Objective

Deploy an intelligent spatial navigation and crowd-routing solution to protect delicate landmarks and optimize visitor flow for 1000+ active users within 3-6-months.

4. Proposed Solution

THEXRA View replaces unguided foot traffic with dynamic AR overlays and spatial wayfinding to disperse crowds, redirect foot traffic away from fragile zones, and solve overcrowding and navigation challenges.

5. Target Users

Tourists and site visitors (1000+ active users)

6. Recommended Technology

AR — THEXRA View (Tourism Edition)

7. Scope of Work (SOW)

Delivery of customized THEXRA View platform to provide AR navigation and crowd mitigation for Heritage Horizon Interactive.

8. Expected Outcomes

Significantly reduced foot traffic in delicate heritage zones, streamlined visitor navigation, eliminated pedestrian bottlenecks, and extended preservation of historical landmarks.

9. Timeline

3-6-months

10. Recommended Next Steps

Schedule a 30-minute technical scoping review for Heritage Horizon Interactive.
