THEXRA ENTERPRISE SOLUTIONS

SOLUTION PROPOSAL

Client: Acare Health **Project:** Acare Health Healthcare Solution Proposal

Date: October 1...

1. Executive Summary

This executive proposal outlines the deployment of AR — THEXRA View (Healthcare Edition) for Acare Health to solve critical operational bottlenecks.

2. Client Challenge

Acare Health faces severe operational bottlenecks during pre-operative consultations due to reliance on conventional paper documentation and static two-dimensional anatomical illustrations, resulting in elevated patient distress, impaired surgical comprehension, and prolonged clinical appointment cycles.

3. Project Objectives

Achieve a 35% reduction in pre-operative consultation duration while driving a 50% improvement in post-operative protocol adherence across 51-250 active clinical and patient users within a 7-week deployment window.

4. Proposed Solution

THEXRA View modernizes clinical orientations by superimposing interactive, medical-grade 3D anatomical models into consultation spaces, replacing static paperwork with immersive procedural walkthroughs that resolve patient uncertainty and streamline informed consent.

5. User Experience

Intuitive spatial interface engineered specifically for Surgical patients & Clinical nursing staff (51-250 active users), accelerating user onboarding and minimizing operational learning curves.

6. Solution Architecture

A HIPAA-compliant augmented reality consultation platform streaming validated 3D anatomical assets to clinical edge displays to deliver interactive pre-operative surgical orientations.

7. Scope of Work

Turnkey engineering deployment, integration, and validation of the customized THEXRA spatial platform for Acare Health.

8. Deliverables

THEXRA View Healthcare Edition application package
Administrative consultation telemetry dashboard

9. Implementation Plan

Phase 1: Discovery & Architecture
Phase 2: Spatial Customization
Phase 3: Integration & Testing
Phase 4: Final Deployment

10. Timeline

1-3-months

11. Assumptions

1. Key stakeholder availability for bi-weekly milestone sign-offs.
2. Sandbox environment API credentials provided during Phase 1.

12. Optional Add-ons

1. Premium 24/7 SLA Technical Support
2. Advanced Custom Analytics Dashboard
3. On-Site Staff Training Workshops
